Main Functionalities

Through the buttons on the right side of the web app, the user will be able to:

- (1) Create “New card”;
- (2) “Import” cards created by any user;
- (3) “Export” cards to share with other users;
- (4) Visualize his own “Stats” to have a reference of his progress;
- (5) “Quiz” himself with the cards he’s created.

New card

The user will be able to create a card with their own questions, a description, an answer, and tags to organize their “deck” by. The tags should be separated by a comma.

Delete existing card

Through the trash can icon, the user will be able to delete any card within the web app.
(This is not reversible)

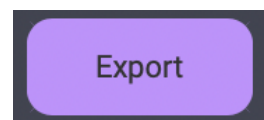

Import

Through the import button on the right the user will be capable of importing a collection of cards that had been previously exported through a .json file.

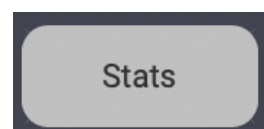

Export

Through the export button on the right the user will be capable of exporting the cards that he has within his web app as a .json file for backing up or sharing.

Quiz

By selecting the “Quiz” button on the right side of the app, the user will be brought to the following screen where he’ll be able to choose how many cards he wants to quiz himself on and which tags the user wants to practice.

A dark-themed modal window titled "Quiz" with a red close button in the top right corner. It contains a text input field for "Number of cards:", a "Pick tags" section with a purple pill button labeled "ThisIsATag", and a "Start Quiz!" button at the bottom left.

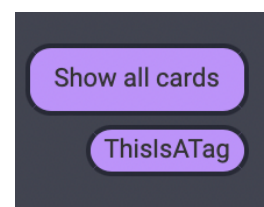

Search for specific cards

On the top right of the web page the user will be able to search for whatever card he’s looking for through the text field along with choosing between searching by “Question”, “Answer”, “Tag”, or “Description”.

A dark-themed search bar with a text input field on the left containing the placeholder "Search for cards". To the right is a "Search by:" dropdown menu with four options: "Question" (selected with a checkmark), "Answer", "Tag", and "Description".

Sorting via tags

On the left of the app, there will automatically be shown all the tags in use, which will allow the user to view only cards relating to a certain tag.

A dark-themed panel containing two purple pill buttons. The top button is labeled "Show all cards" and the bottom button is labeled "ThisIsATag".
